

Organizers: FAO & WEF Nexus in Africa Initiative, WE4F, GIZ Nexus Dialogues, and SEI

The water-energy-food (WEF) nexus is a useful framework for addressing complex transdisciplinary natural resource and environmental challenges in integrated, innovative ways. This webinar series explores using and operationalizing WEF nexus approaches for finding solutions to these challenges. The series focuses on examples and solutions by linking and using WEF nexus approaches to timely interventions, technologies and issues of importance, especially in the context of COVID-19 and climate change.

Session 1:

Disaster resilience and risk in the context on Water-Energy-Food Nexus: Insights from Africa

Tuesday, September 14, 2021 | 13:30 - 15:00
